PREFACE

The Abstract of Statistics is an annual publication that presents a wide range of statistics and other information on Belize. It is an invaluable source of information about a great many subjects, including population, health, education, unemployment, agriculture, inflation and the environment. This edition generally provides data up to 2008, however, there are a few series that could not be updated due to the lack of data at source. If the missing data should become available before the next edition of this publication, they will be published on the Institute's website.

The Statistical Institute of Belize expresses its sincere appreciation to the many governmental ministries and departments as well as other organizations and persons who very graciously made available some of the information published here. The Institute is also thankful to its staff for their great effort in producing this publication.

Suggestions and comments for improving coverage and presentation of data should be sent to the Director-General at the above address.
