APRIL 2014

May 28, 2014

IMPORTS

In April 2014, the value of Belize's total imports was \$159.8 million, a \$2.1 million or 1.3 percent decrease over the same month in 2013.

The most significant spending decrease was for goods imported into the free zones, which fell by 29 percent to \$16 million, followed by *Manufactured Goods* whose value decreased by 14.5 percent primarily because of reduced purchases of metal roofing sheets and construction steel bars.

Belize imported over \$60 million worth of goods from the United States during the month. Curaçao and Mexico remained the second and third largest sources of imports, respectively, combining for a 25 percent share.

At the end of the first four months of this year, import spending was up by 24 percent to a little over \$600 million. The bulk of the increase was on *Machinery and Transport Equipment* and *Manufactured Goods*.

Figure 1: Monthly Gross Imports and Domestic Exports; January 2010 - April 2014

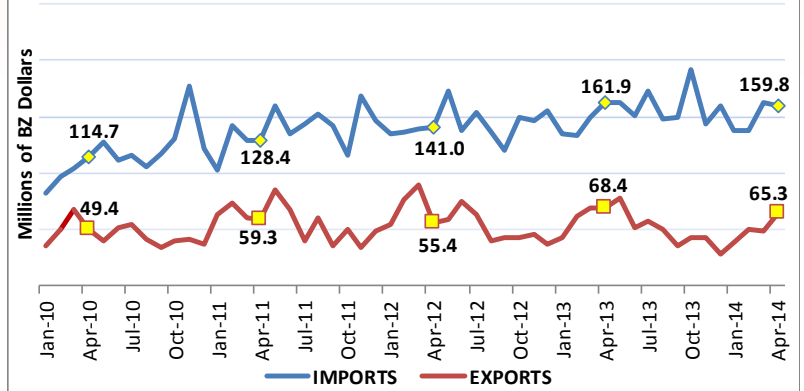

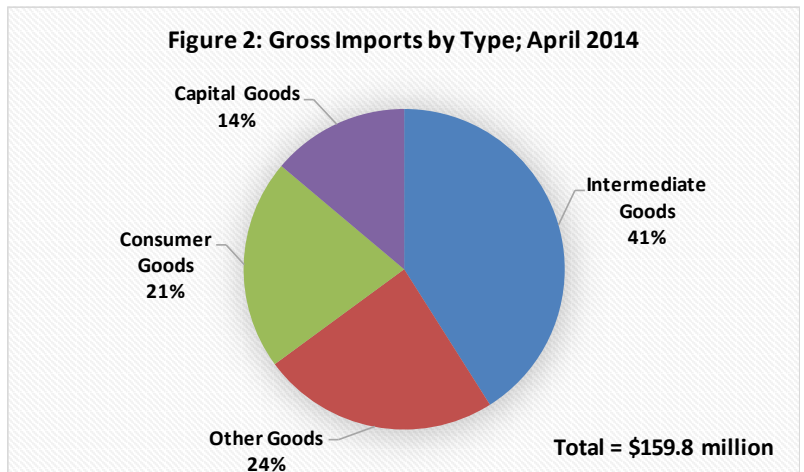

Figure 2: Gross Imports by Type; April 2014

DOMESTIC EXPORTS

As in the previous three months, Belize's export earnings fell in April 2014 when compared to the same month last year. Preliminary data indicate that during the month the country's total domestic exports amounted to \$65.3 million, down 6.6 percent from a year ago. This decline was mainly as a result of decreased earnings from bananas, papayas, Red Kidney Beans and animal feed.

Sugar and crude petroleum remained the top two earners, with earnings from sugar increasing by about \$1 million while oil receipts fell by \$0.6 million. Although exports of citrus concentrate were down by just under \$1 million, the combined receipts from citrus products, which include grapefruit concentrate, orange and grapefruit oil, and citrus pulp cells, was over \$10 million for the month. The shrimp industry continues to perform well, with receipts of \$5 million, almost double that of last April. Animal feed brought in \$2.5 million, with sales continuing to Puerto Rico and Guyana.

Exports to both the EU and Caricom fell by almost 40 percent, while sales to the US was practically unchanged during the month.

Up to the end of April this year, domestic exports stood at \$205 million, roughly \$44 million less than for the corresponding four months in 2013. The two largest contributors to the decrease were crude petroleum and sugar, with declines of \$18 million and \$16 million, respectively. There were reduced sales of all other major exports, except farm shrimp. Earnings from the minor exports stood steady at \$32 million, despite a \$5 million drop in animal feed sales.
