

How far north can golf carts and bicycles go? Can we drive all the way by road to our condo at the Costa Maya Reef?

CAN is a big word - probably "can" (but it won't all be on a road) but why would anybody want to?!

Eight miles of water holes, mud, ruin the golf cart, ruin your back.

If you want to, you can get all the way to Robles with a bike - as long as you have the energy to get back!
