

# **We need for someone to give us info about flying into Belize. Procedure getting into Ambergris from Belize City. Fees, available tie-down for general aviation, security for parked aircraft for a week.**

Article Number: 171 | Rating: 5/5 from 2 votes | Last Updated: Tue, May 10, 2011 2:43 PM

For private flights intending to do local flying in our country the following documents need to be presented to the Department of Civil Aviation upon the aircraft's arrival at the P.S.W. Goldson International Airport: Pilots Licence, a valid Medical Certificate, Aircraft Certificate of Registration and Aircraft Certificate of Airworthiness. The only requirement for an arriving private flight is for the pilot to file a flight plan from the last point of departure. Flights to our airstrips/airports are permitted depending on the type and weight of the aircraft.

The landing fee at the international airport for a single engine is approximately us \$5.00, there is no tie-down, nor any security provided.

Lastly no jet aircraft are allowed to San Pedro.
