

How and where do i apply for a golf cart permit?

Article Number: 197 | Rating: Unrated | Last Updated: Fri, Apr 4, 2008 6:26 AM

The application for a vehicle permit can be picked up at the traffic office, or downloaded from the attachments list below. It needs to be submitted to the traffic office, which is currently located in the DFC subdivision. You go past the cement block factory and look for the security company office on the right. Turn right there and it is down that street on the left side. Has a white picket fence around the house and a bulletin board hanging outside on the veranda. There is no sign though.

Basic requirements are that the applicant must have a Belizean drivers license and he must have an off-road parking space.

Golf cart permits shouldn't be too hard to obtain but other vehicles might not be as easy.

If you buy a golf cart from Capt Shark's I believe they can sell you one complete with permit as they are licenced dealers.

Attachments below are the forms for:

- 1) Application for importation
- 2) Application for replacement
- 3) Application for an inspection certificate
