

When is the best time to see whale sharks?

Article Number: 235 | Rating: 5/5 from 1 votes | Last Updated: Tue, Sep 28, 2010 8:51 AM

The best time to see them is 3-10 days after the full moon in April and May. March is only a good time to see them if the full moon falls towards the end of the month. June is okay, but seas are rough.
