

How do I get the BBC TV Network on Cable TV?

Apparently, unlike CNN, Al-Jazeera etc. who do free broadcasts, the British Broadcasting Corporation television, network expected payments. . . . Even when all the TV companies in Belize got together, the BBC was still charging more than they could afford, so it got banned a few years ago.

Bloody stupid in my opinion, the BBC was supposed to be a sort of sales or advertising for Britain. As a result, everyone now looks at USA material and not BBC. . . . So must still further harm trade with the UK.

I get the BBC on these links:

<http://www.bbcworldnewslives.blogspot.de/>

and Brit news can be seen here too, not BBC
