

Drinking water safety

Article Number: 412 | Rating: Unrated | Last Updated: Fri, Jan 22, 2016 5:22 PM

Can I drink drinks with ice at Coco Beach Resort? Is the water that the ice is made from purified water?

Yes no problem at all, the water for ice is purified. Restaurants and bars often buy ice made from purified water.

Many purify the water. Portofino does it because a the ice reservoir from the ice maker is not cooled or frozen, and you get a lot of spoilage. We make our own water that makes it very expensive.

We usually buy from Bowen & Bowen, sometimes from Martha's or Milo's. They are all purified, but the B&B ice is the coldest frozen and therefor the best.

You can drink drinks with ice anywhere on the island, it's good.
