We will be arriving in San Pedro by water taxi on 8/20. Which would be the most convenient way to get to the resort? After reading several articles, I'm not quite sure what plans/reservations to make. I have read that this is not peak time on the island and some services may not be as frequent as in peak season.

You might ask the resort if they pick you up, some do...

Otherwise I'd take the Coastal Xpress (water taxi)...

There is a road on the west side now, you could also take a taxi from the airport....

San Pedro Taxi Association drives minivans to/from the airport.
