

Mobile GPRS Service: Do Smart or BTL allow for email and web browsing capabilities on your smart phone such as the BlackBerry or iPhone? If yes, how much does this service cost monthly? If yes, can you use it for tethering to your laptop, or is th

Marty Casado Tue, May 3, 2011 [Costs, Internet & Email Services](#) 0 27192

Yes, both BTL & Smart offer mobile Internet packages for smart phones. Some BlackBerry's do not work however! The iPhone works like a charm. The cost on BTL is 49.00 plus GST on postpaid plans or you can use credit on prepaid plans.

I don't know if the tethering works as I have not tried it lately. Will test it and let you know in a follow-up response.
